METALSISTEM's patented, adjustable shelving series are made from certified, prime quality, zinc coated or stainless steel, ensuring a high level of quality and durability.

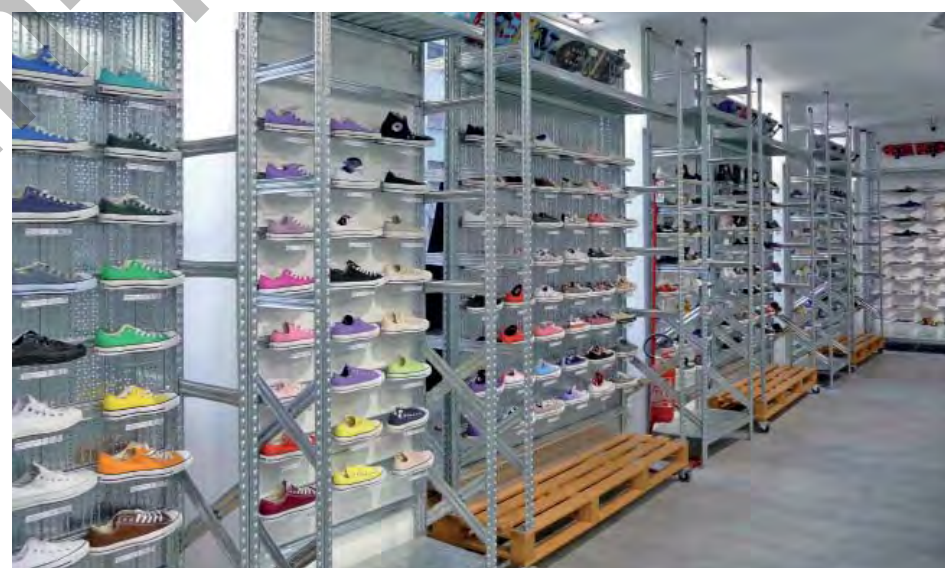

The modularity and versatility of the systems allow for a wide range of applications, suited for the most diverse product categories, enhancing the visibility and exposure of the items on showcase.

Thanks to their attractive high-tech design, the systems are trendy and pleasing to the eye, providing comprehensive and cost efficient shopfitting and display solutions.
